

IMMEDIATE RELEASE

**M.R.S. Company Ltd. Introduces New Version of WorthIT Fixed Assets,
Compatible with Windows 7**

TORONTO, On – May 25th, 2010 – [M.R.S. Company Ltd.](#) today announced the newest version of its flagship Fixed Assets Business Reporting Solution, WorthIT Fixed Assets 7.0 is now compatible with Windows 7.

The new release of WorthIT Fixed Assets offers significant long-term advantages not available in previous versions. Advantages include compatibility with Windows 7, enhanced security management, IFRS reporting compliance, new Software features and additional reporting options. WFA for Windows 7 is also compatible with Windows XP, Windows Server 2003, and later operating systems and servers.

“Version 7.0 incorporates the best of both worlds-The features and capabilities that you would normally associate with Enterprise software and the low infrastructure and maintenance profile of packaged software” said Alex Perklin, President of M.R.S. Company Ltd.

WorthIT Fixed Assets is a comprehensive Business Reporting Solution that strikes the best balance between software features in virtually all key areas of Fixed Assets management, reporting compliance with internal and IFRS standards, ease of use and cost of ownership and maintenance.

WorthIT Fixed Assets for Windows 7 has passed extensive requirements of the “Compatible with Windows 7” logo program including Microsoft Corp.-designed tests for compatibility and reliability on Windows 7. At M.R.S., we believe strongly that compliance was mandatory so that our customers have the confidence and peace of mind that WorthIT will work with Windows 7.” Peter Morrison, Director Solution & Services.
